

Tools For Teamwork

Individual & Organizational 360° Surveys

As an Executive Coach, you know how critical a 360° perspective is for your clients' awareness and growth.

You also know that surveys exist to help you capture that perspective.

But did you know that such a survey can also be the roadmap to your clients' success?

**Create a baseline for development with your key clients....
Using a quality, professional 360° Survey.**

Here's how the *Tools For Teamwork* 360° Survey works:

- You and your client determine the individual, individuals, or organization to be assessed.
- You and your client choose the length of the survey and the number of respondents.
- You and your client identify the questions you want to ask the respondents.
- You purchase a license based on the number of questions and number of respondents
- You submit your questions and client information to us
- We submit the survey to your client on your behalf
- We track and compile the results.
- We complete your confidential 360° survey
- We provide YOU with a customized report for YOUR client
- You build your own coaching program for your client, based on the survey results.

And did we mention how affordable this is?

The following table describes the pricing structure for the survey. You are free to charge your clients for both the survey, and your coaching or consulting time to review the survey results. And don't forget to add in the profit from the ongoing coaching to help your clients follow this roadmap to success!

Individual & Organizational 360° Surveys

At *Tools For Teamwork* we are dedicated to bringing you the very best in tools for individuals and groups, so that you can build the revenue you deserve.

Please contact us to purchase your 360° Survey today!
